Lecture or Class Discussion

Note: According to APA Style format, notes taken from a lecture is considered unrecoverable or unpublished materials or sources. However, if such notes are documented within a text or paper, there must be in-text citation credited to the author of the lecture and then a reference list of such work.

Example: A lecture note from PSY 150 on October 23, 2014, Professor McMahan stated that students succeed in their academic careers if they show up for classes regularly (McMahan, PSY 150 lecture, October 23, 2014).

Interview

S. Jones. (Personal communication, May 8, 2014).

OR

(S. Jones, personal communication, May 8, 2014)

Note: List all citations in alphabetical order by author. List citations in alphabetical order by title of source(s) if author is not available. Also, be sure to consult APA Style manual as needed – 6th edition.
